Individual Brainstorm

❓ **Question #1:** Describe your website subject in detail:

> What do you already know about your social impact topic? (*50+ words*)

> My social impact topic is about urbanization and housing, I understand that urbanization is fast increasing, resulting in overcrowded cities, increased housing costs, and a scarcity of affordable homes. Many cities suffer from slums, homelessness, and poor infrastructure and social inequalities. Addressing these challenges will require lasting solutions, and I believe dealing with these problems will have great social impact.

> What do you still need to find out about your social impact topic in order to create a meaningful website? (*20+ words*)

> I need to understand more about pressing housing issues in America or Florida, the best practices for affordable housing solutions, Homelessness issues, and etc.

Who are the stakeholders involved with/affected by your social impact topic? ie children, people living in cities, politicians, CEOs, female-identifying persons (*20+ words*)

Stakeholders include city residents, low-income families, policymakers, urban planners, community organizations, environmentalists, homeless individuals, and vulnerable groups like women, children, and the elderly.

❓ Question #2: Describe your proposed website in detail:

What is the purpose of your website? (*30+ words*)

The purpose of the website is to raise awareness about urbanization and housing challenges that we face today in America, provide information on innovative solutions, and to promote affordable sustainable housing and more.

Who is your intended user? (*30+ words*)

The intended users are urban residents, policymakers, urban planners, community leaders, and organizations focused on affordable housing, and also individuals facing housing challenges, such as low-income families and homeless people.

How will your user interact with your website? (*30+ words*)

Users will visit the website to read articles, learn about housing problems and solutions, watch videos, and use simple tools like housing cost calculators. They can also sign petitions or leave comments.

# Wireframe

❓ When creating your wireframe, ask yourself:
- What about your topic do you want shared on your website?
- How do you want your content and website structured?

❓ Copy/Paste a screenshot of your wireframe or a link to it below (if using a link, make sure it is publicly viewable).

Building Better Cities: Solutions for Affordable Housing

Urbanization is rapidly increasing, causing overcrowded cities, higher housing costs, and a shortage of affordable homes. We aim to you on these challenges, highlight innovative solutions, and inspire action. Together, we can create sustainable, affordable housing and improve urban living for all individuals and communities.
